Sri Venkateshvara Engendering Industries

Welcome to Sri venkateshvara engineering Industries

SVEI was established in the year 2000, and has since then been in the constant pursuit of perfection. Our company has a sole aim of providing superlative quality infrastructure and related services to our prestigious clients. We are a recognized name in the construction industry offering top-quality design, fabrication, and erection of pre-fabricated buildings, and general engineering works like goods lift,puddle flanges,Dock Leveller etc conform to the highest quality standards

The Pre-Fabricated structures are highly flexible in terms of future expansion and designed as per the parameters of energy efficiency, architectural versatility and earthquake resistance. Our services are time saving and cost effective, and are thus reckoned by various individuals and companies. We are manufacturing and installing these for various applications like Godwns, factories, work shopes etc.

These buildings will be pre fabricated at our work shop, transported in sections , site erection and assembled as per the Drawings. Roofing will be done with Galvalume profile sheets with various color combinations.

Sri Venkateshvara Engendering Industries

Our clients can avail from us an extensive range of superior quality array of Factory Sheds. These products are manufactured as per the defined industry standards by our highly qualified professionals. Our product range is widely acknowledged by our customers for their salient attributes like chemical and corrosion resistance, high durability; it can also withstand extreme weather conditions and have longer service life

Sheds For Wear Factory

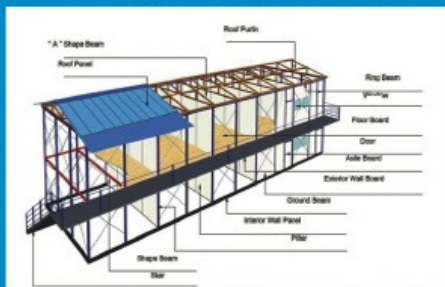

Sheds For Ware House

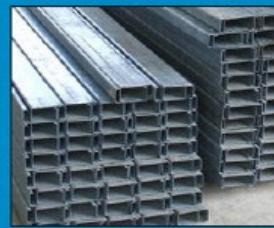

We bring forth Pre Fabricated Warehouse Shed, which is fabricated using superb quality raw material and advanced machines. These sheds are developed in line with the requirements and specifications detailed by the customers. The sheds provided by us are not only strong but are also durable in character
